## Tables \& data

The table to the right lists different kinds of butterflies caught for a science project. Use the information in the table to answer the following questions:
1)

How many fewer monarchs butterflies were caught than glasswings butterflies?
3)

How many longwings and buckeyes butterflies were caught in all?
$\qquad$
5)

How many buckeyes and longwings butterflies were caught in all?
7)

How many fewer longwings butterflies were caught than glasswings butterflies?
$\qquad$
2)

How many more glasswings butterflies were caught than monarchs butterflies?
4)

How many more glasswings butterflies were caught than longwings butterflies?
$\qquad$
6)

How many more longwings butterflies were caught than monarchs butterflies?
8)

How many fewer monarchs butterflies were caught than longwings butterflies?

## Tables \& data

The table to the right lists different kinds of butterflies caught for a science project. Use the information in the table to answer the following questions:
1)

How many fewer monarchs butterflies were caught than glasswings butterflies?

320
3)

How many longwings and buckeyes butterflies were caught in all?

1,210
5)

How many buckeyes and longwings butterflies were caught in all?

1,210
7)

How many fewer longwings butterflies were caught than glasswings butterflies?

310

| Species | Count |
| :--- | ---: |
| Monarchs | 240 |
| Longwings | 250 |
| Glasswings | 560 |
| Buckeyes | 960 |

2) 

How many more glasswings butterflies were caught than monarchs butterflies?

320
4)

How many more glasswings butterflies were caught than longwings butterflies?

310
6)

How many more longwings butterflies were caught than monarchs butterflies?

10
8)

How many fewer monarchs butterflies were caught than longwings butterflies?

10
